## A Message from the Board

June 19, 2020

---

### COVID-19 Case Confirmed at Assisted Living at Summerplace

We have received verification from Mia Mullins, Regional Director of Operations for Assisted Living at Summerplace, that there is a confirmed case of COVID-19 involving a resident of their memory unit, Expressions at Summerplace.

Ms. Mullins reports:

***"We have infection control policies and procedures in place and are not allowing visitors into the community and are following the CDC Guidelines for all essential workers.***

***We're learned that one of our Memory Care residents has tested positive for COVID-19. This resident moved into our community on June 2nd, and, following the policies we have in place for new admissions, was immediately isolated from others in our care and placed on special droplet precautions - preventive measures used to reduce the chance of spreading germs through sneezing, coughing and talking. We can confirm this resident diligently followed all of our preventive measures since that time, despite being asymptomatic.***

***We are thankful to report that currently no additional residents have tested positive, although we continue to diligently screen all residents and staff for symptoms consistent with COVID-19."***

No visitors are currently permitted at Assisted Living at Summerplace until further notice. We encourage our Summerplace residents to remain vigilant in their contact with others, use all safety precautions such as frequent hand-washing and using hand sanitizing products, wear a mask when outside one's home, etc. We continue to urge our residents to refrain from using the clubhouse facilities even though Multnomah County has now entered Phase I. We do not have 24/7 janitorial services for the clubhouse. It is better to be safe and cautious in our personal habits and conduct until such time as a vaccine or a viable treatment is available.

Stay Home, Stay Safe.
